The 2021 Sustainable Sewer Solutions project is a result of the Ohio Environmental Protection Agency (OEPA) Director's Final Findings and Orders requiring the City of Upper Arlington to reduce excessive inflow and infiltration (I/I) of rain water into the sanitary sewer system. The OEPA approved an Upper Arlington Sanitary Sewer Evaluation Survey that identified the most problematic areas in the City for rainwater getting into the sanitary sewer pipes. Following this sanitary sewer evaluation, the City developed a 12-year remediation plan called the Sustainable Sewer Solutions Program, which began in 2017. This project includes lining of the sanitary mains and laterals to homes, as well as installation of cleanouts for homeowners. Manholes will also be rehabilitated in the area.

Additional information on the Upper Arlington Sustainable Sewer Solutions project can be found at the following website: <https://www.youtube.com/watch?v=zf-jDiWOMQo>

For 2021, work will be performed on the following streets:

Chiselhurst Place  
Hillview Drive  
Hoxton Court  
Johnston Road  
Surrey Hill Place  
Walhaven Court

### Want to receive future updates on this project

In an effort to improve efficiency and reach property owners quicker, we have created an email notification list for future updates on this project. We are recommending you send us your email address to be added to this notification list. Please email your property address to Mandi DiSanto, at [mdisanto@uaoh.net](mailto:mdisanto@uaoh.net), with the subject line "2021 Sustainable Sewer Solutions Updates" in the subject line and we'll add you to the list. If you do not have an email address, please continue to check the City's website, [upperarlingtonoh.gov](http://upperarlingtonoh.gov), for project updates.

### COVID-19 Impacts and Updates

As you are aware, public policies and protocols are changing daily due to the COVID-19 coronavirus outbreak. For this reason, we ask residents to provide their email address to us and/or continue to check the City's website for updates on this project. The Contractor and subcontractors for this project have been instructed to maintain the current social distancing guidelines that are in effect. As designed, the contractor will not need to enter your home to complete this work. If you have any question please contact us for further clarification.
